Yew Chung Arts and Language Centre (YALC) has a history of twenty years since its establishment. We firmly believe every student is smart in their own way - every child possesses their potential and strengths. Our mission is to create "an education that takes individual differences seriously and, insofar as possible, crafts practices that serve different kinds of minds equally well. We highly value excellent teaching staff and curriculum design to provide students with a high-quality and enjoyable learning environment, nurturing and discovering your child's talents. Unlike other education centres, we not only focus on learning outcomes but also prioritise the learning process. Through meticulously designed courses, YALC actively cultivates the eight criteria of "multiple intelligences" (based on the theory by Howard Gardner, a psychologist from Harvard University). This enables children to genuinely enjoy learning, develop creativity, take responsibility, and acquire essential skills in handling interpersonal relationships.

YALC programmes that follow are categorised into communication through languages, through the arts, through interpersonal activities, and computation, logical reasoning, categorisation, etc. These offerings have been warmly embraced by parents and students spanning from early childhood to high school graduation.

耀中語藝教育中心 (YALC) 自創立至今已有二十年歷史。YALC深信每位小朋友都有自己的潛能和優勢。我們的使命是創造各類型「尊重個別差異，發展不同潛能」的教育課程。我們非常重視優秀的師資和課程設計，為學生提供高品質且愉快的學習環境，培養並發掘你孩子的天賦。與坊間其他教育中心不同，我們並非只強調學習成果，而是更重視學習的過程。YALC 通過精心設計的課程，積極培養孩子們「多元智能」中的八大領域 (來自美國哈佛大學心理學家霍華德·加德納的理論)，讓孩子們能夠真正享受學習、發展創意、承擔責任，並學會處理人際關係等重要技能。

根據上述理念，YALC 提供語言表達、藝術表達、人際關係、運算、推理邏輯及分類歸納等不同類別的課程，並深受家長、幼兒以至中學畢業的學生歡迎。

Chinese ink painting is a representative of Chinese painting, specifically referring to "guohua" in a narrow sense, and it has spread to East Asia and other regions. The characteristics of Chinese ink painting are: it emphasises meaning over realism and includes a small amount of blank space.

Watercolours are vibrant and transparent, utilising various techniques such as flat wash, dotting, outlining, and layering. These are the best mediums for colour training and are essential subjects in art education for primary, secondary, and high school students today. Utilising geometric shapes to inspire students' understanding of object forms, colour materials are used to teach concepts such as size, distance, height, and shape. Under the guidance of the instructor, students will create freely, enhancing their ability to express colour and imagery, thereby mastering composition and colour application, using themes like plants, small animals, and daily life to stimulate creative abilities.

水墨畫是中國繪畫的代表，也就是狹義的「國畫」，並傳到東亞和其他地區。中國水墨畫的特色是：重意不重實且少量留白。

水彩色彩鮮艷、通透、有平塗、點、勾線、重疊等不同的技巧，是色彩訓練中最佳的顏料，亦是現今高、中、小學生美術必修課程。利用幾何圖形啟發學員形飾物象的形態，以色彩素材教授物像大小、遠近、高低、形像等概念。在導師指引下自由創作，提升學員對色彩及形象之表達能力，從而掌握構圖和色彩運用，以植物、小動物、日常生活等題材誘發創作能力。
